

SETTING UP APPLICATION ENVIRONMENT

Docker CLI Installation

TEAM ID	PNT2022TMID08239
PROJECT NAME	Containment Zone Alerting Application

Step 1:

Go the official Docker website: <https://docs.docker.com/desktop/install/windows-install/>

Step 2:

Click that button (Docker Desktop for Windows) and download will start and it takes few minutes to complete.

Step 3:

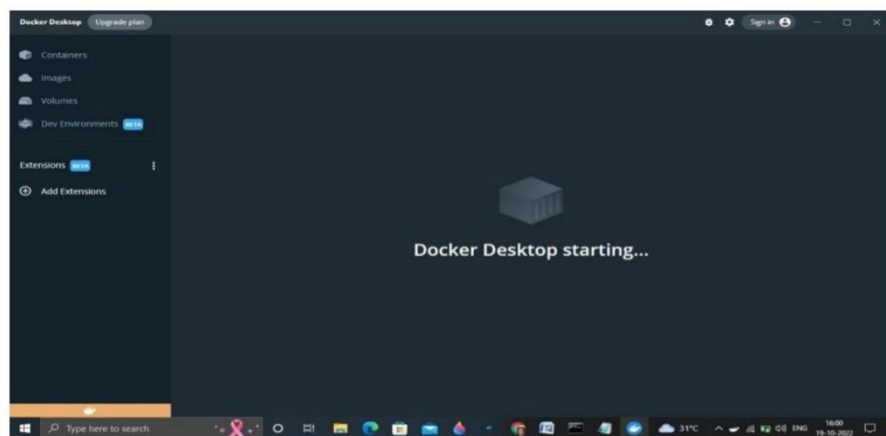

Double-click the particular docker file.

Step 4:

Now Installation is complete. This icon was added in your desktop. Double-click the icon to start the docker app, you can register and login that app to access those credentials.

Step 5:

Docker will start correctly, the left bottom side was shown in green colour, docker will show the status of docker app working successfully.

**Step 6:**

Finally, the docker is installed successfully.
